

Pay Pool Administrator Advisory

2012- 13

Issue Date: December 5, 2012

Topic: Compensation Management Spreadsheet (CMS) 2012 v1.6 Posted in Pay Pool Notices

Discussion: A new CMS, version 1.6, was created to fix two errors in the current version. The first error caused the Remarks and the 2nd Level Signature cells to clear and lock for Presumptive employees. The second error caused faulty alignment of the Upper and Lower Rails on the Part I. Version 1.6 aligns the Upper and Lower Rails with the OCS calculator values.

Action: Use the updated CMS v1.6 found in Pay Pool Notices to facilitate pay pool deliberations. Previous versions have been deleted from Pay Pool Notices. If your pay pool has already met, do a round-trip in CAS2Net to use the updated spreadsheet. This will prevent you from losing any data/scores.

Notes:

1. CMS v1.6 incorporates all the changes brought about by CMS v1.5, as outlined in Pay Pool Administrator Advisory 2012-11; and
2. If you plan to print Part I forms online (when available), the signature lines and remarks will come from columns AA:AC of the last uploaded CMS. Make sure these fields are populated if desired.

All advisories are posted on the DoD AcqDemo website at <http://acqdemo.dau.mil/advisories.html>.
